

Figure 1 is a line plot showing the value of the objective function versus time (wall clock seconds). The y-axis is labeled "value of the objective function" and ranges from 10948 to 10968. The x-axis is labeled "time (wall clock seconds)" and ranges from 0 to 800. The plot shows a sharp drop in the objective function value at approximately 390 seconds, followed by a plateau.

time (wall clock seconds)	value of the objective function
0	10967
0	10964
390	10963
390	10955
390	10954
390	10953
390	10952
390	10951
390	10949
780	10949
