

2nd International Workshop on Combinations of Intelligent Methods and Applications (CIMA-10)

October 28, 2010 - Arras, France
Room S5

Workshop Program

SESSION 1: 14.30-16.00

- Sergio Pajares and Eva Onaindia. *DefPlanner: A defeasible argumentation-based planner.*
- Isabelle Toulgoat, Pierre Siegel and Yves Lacroix. *Operator behavior modelling in a submarine.*
- Emilio Ferrara and Robert Baumgartner. *Automatic Wrapper Adaptation by Tree Edit Distance Matching.*
- Sotiris Batsakis and Euripides Petrakis. *Representing Temporal Knowledge in the Semantic Web: The Extended 4D Fluents Approach.*

Coffee Break: 16.00-16.30

SESSION 2: 16.30-17.30

- Aurelien Bossard and Christophe Rodrigues. *Combining a Multi-Document Summarization System with a Genetic Algorithm.*
- Teppei Kitagawa, Ken-ichi Fukui, Kazuhisa Sato, Junichiro Mizusaki and Masayuki Numao. *Combining SOM and KeyGraph for Extraction of Essential Events: Application to Damage Evaluation of Fuel Cells.*
- L. D. Tavares, G. R. L. Silva, D. A. G. Vieira, R. R. Saldanha and W. M. Caminhas. *Detecting car accidents based on traffic flow measurements using machine learning techniques.*
